Assignment#1 Personal Profile Web Page

Value: **4% of final mark**

Due: **Thursday, Oct 16, 2025**

Submit web page & all files as a zipped folder to Blackboard.

Guidelines and description (read the following criteria very carefully):

This assignment will test your ability to build with HTML using semantically appropriate elements, and style them with CSS.

Requirements:

For this assignment, you will create a profile web page for yourself.

1. Your page must be saved as "*index.html*".
2. Your page must have text that appears on the browser tab.
3. Your page must contain an appropriate photo of your subject.
4. Your page must make proper semantic use of headings <h1>, <h2>, and other elements.
5. Your page must contain at least two paragraphs worth of information.
6. Your page must use a specified background colour.
7. Your page must demonstrate use of styling rules inline, in the <head> section, **and** externally.
8. Your page must contain HTML semantic elements.
9. Your HTML page and your CSS page must contain *meaningful* comments.
10. Your image element(s) must contain *alt* attributes.
11. Your web page must contain a working hyperlink to an external site relevant to your subject.

Marking Rubric

2 marks for each successfully completed criteria listed above.
